Q21. An "education savings account" in K–12 education – **often called an ESA** – establishes for parents a government-authorized savings account with multiple, but restricted, uses for educational purposes. Parents can then use these funds to pay for: school tuition; tutoring; online education programs; therapies for students with special needs; textbooks or other instructional materials; or save for future college expenses.

In general, do you favor or oppose an ESA system?

Q26. A publicly-funded scholarship system in K-12 education, sometimes called school vouchers, allows parents the option of sending their child to the school of their choice, whether that school is public or private, including both religious and non-religious schools. If this policy were adopted, tax dollars currently allocated to a school district would be allocated to parents in the form of a “school voucher” to pay partial or full tuition for the child’s school.

In general, do you favor or oppose a school voucher system?

Q28. A publicly-funded scholarship system in K-12 education, sometimes called school vouchers, allows parents the option of sending their child to the school of their choice, whether that school is public or private, including both religious and non-religious schools.

Ohio enacted a statewide “school voucher program” in 2005, called the **Educational Choice (EdChoice) Scholarship Program**. The program provides vouchers to students who are assigned to “low-performing” public schools, so they can attend a private school of their choice, including both religious and non-religious schools. The student’s parent then uses the voucher to pay partial or full tuition for the chosen private school.

In general, do you favor or oppose this voucher program?
